Nelson Dwyer

On this 22nd day of March A.D. 1857 Mr. Brooks Dinswade, a citizen of the County of Green in this State and an attorney of the Circuit Court of said County filed in the Executive Office a Complaint under oath, preferring charges against Charles & Thomas Sheriff of the said County, charging him, in substance, with negligence in keeping and permitting to escape from his custody as such Sheriff and keeper of the common jail of said County, one Joseph Pagnier, duly committed to his safe keeping & custody as such officer by the said Circuit Court, and who was indicted by the Grand Jury of said County for the crime of Murder for the murder of John S. Nagold which indictment was returned and still pending against the said Pagnier, and the said Complaint prayed that the said Sheriff might be cited to appear before the Governor of this State to answer to & defend against the said charges and if found to be true & proper becoming, that the said Charles & Thomas

might be removed from his said office of Sheriff of the said County under the provisions of the constitution and laws of this State in such cases provided.

The complaint further stated that at the time of the filing of the said indictment of the presenting of the said complaint, the said Brooks & Minnicks was the attorney for and counsel for the State against the said Joseph Payne on the said indictment. That upon the filing of the said complaint the Governor on the 22nd day of March A.D. 1851 appointed there to a summons directed to the coroner of the said County commanding him to serve the said complaint upon the said Charles & Thomas by delivering to him a true copy thereof and also to summon him to appear before the Governor of this State at Lancaster in the County of Grant in this State at the Executive office on the seventh day of April A.D. 1851 at 11 of the clock in the forenoon of that day to answer to and defend against the said charges so preferred. That afterwards the said complaint and summons were returned by the coroner of said County with a return thereon endorsed stating that he had duly served the same as commanded on the 2nd day of March A.D. 1851. That afterwards it was stipulated by and between the said Brooks & Minnicks and Charles & Thomas that the trial and hearing of the said complaint & charges should be had and held at the place aforesaid on the fourth Monday in the Month of April A.D. 1851 at the place aforesaid in the forenoon of said day.

At the time and place last aforesaid the said Brooks & Minnicks and Charles & Thomas both appeared in person, and thereupon the Governor decided on application of the parties that he should be governed, in the examination of the truth of the said charges and of the defenses thereto, by legal evidence to be introduced first on the part of the supporters of the complaint, second on the part of the defender, regularly & according to the examination.

Thereupon the said Charles & Thomas moved to dismiss the charges against him for the following reasons.

1st That a mere private individual cannot prefer charges of this kind in such a proceeding and cannot in the prosecution of the same without the aid or sanction of the law officers of the State & not the District attorney of the County, for which the purpose, against to whom the charges are made, is an officer, or the Attorney General of the State.

2nd Admitting that the charges could be preferred & carried on by an individual & legally, in either case, the Governor has not jurisdiction of the subject matter & under the constitution has not the power to try nor determine with the truth of the charges & determine the same without for the legislation to give the provision of the constitution under which these charges are preferred an operative effect it being dormant until it is brought into life by legislation.

3rd That the Governor has no legal authority to administer a judicial or legal oath to elicit truth in such a proceeding, nor is he authorized by any law to call in the aid of any other officer for that purpose and no legal evidence from witnesses can be taken before him in such an examination.

This decision of this motion was reserved for consideration by the Governor and thereupon the said Charles Thomas pleaded not guilty to the said charges & filed his motion for a writ of habeas corpus and the trial and examination proposed to be taken. The Governor called to his aid the clerk of the circuit court to take minutes calling during the trial and all the witnesses examined on the said trial were sworn by such clerk to speak the truth the whole truth and nothing but the truth touching the subject matter of the examination.

The Governor after hearing the arguments of counsel as well of the said complainant as of the said Charles S Thomas took time to consider of the said motion & of the merits of the said charges & of the evidence presented and being sufficiently advised of and concerning the order decision and determination to be rendered hereon, On this 16th day of July in the 1851 the Governor overruled the two first reasons given in the said motion of the said Charles S Thomas to dismiss the charges therein preferred and does decide and determine as follows therein.

That a private citizen, under the fourth section of the sixth article of the Constitution, and the laws of this State, can prefer & file charges against any officer in that section mentioned, before the Governor, and can carry on the prosecution to a final determination without the aid or sanction of the law officers of the State, to wit the District Attorney of the proper County or Attorney General, and further that under the Constitution and existing laws the Governor, has jurisdiction of the subject of such charges and has the power to hear try, examine into the truth of such charges & the defenses and to decide and determine the same upon legal evidence & proofs, without additional legislation to give life force & effect to this provision of the Constitution under which such charges are made.

And the Governor sustains the third and last reason given in said motion of the said Thomas to dismiss the charges therein preferred and does decide and determine as follows.

That the Governor has power to administer an oath to elicit truth in proceedings of this nature but that he has no authority to administer a judicial oath or sworn an oath as would subject the witness if he should testify falsely, severely to the penalties of perjury as a crime, and that he has power to call into to his aid any other officer authorized generally to administer oaths, for that purpose, but that such so administered would not subject the witness, if he should testify, comply false, to the penalties of the crime of perjury. And the Governor further decides that legislation is necessary to enable a legal judicial oath to be administered before him, or to be used before him when approached as the juror & in affidavit, in such a proceeding, so that a witness swearing comply false to a material fact in such a proceeding, would be subjected to the pains & penalties of the crime of perjury, and so as to constitute legal judicial evidence the evidence taken before him in such cases.

And the Governor therefore decides and determines that for the reason that the testimony of witnesses cannot be taken before him so as to constitute legal judicial evidence in such cases, and as a correct practice is that the first case of this kind should be established as a precedent that the rights of the public as well as individual officers may be fully protected, the charges herein preferred against Charles S Thomas the Sheriff of the

County of Green in this State be and the same is hereby dismissed without prejudice.

June 3rd 1851

This day the Governor, under the act of the Legislature of its last session relating to the selection of the Swamp overflowed lands granted by Congress to this State, and the instructions of the General Government prescribing the manner of their selection, determined that the selection of such lands so granted should be made by the Surveyor General of Wisconsin and Iowa upon the data of the field notes of the surveys on file in that office.

The principal reasons dictating this decision by the Executive were briefly as follows.

The instructions of the General Government now on file determining the basis of such selections and the decision of the Surveyor General of Wisconsin and Iowa under those instructions, presented two bases as furnishing the data upon which the lands granted by the act of Congress referred to, must be selected, one of which was the field notes of the surveys on file in the office of the Surveyor General, and the other was satisfactory evidence to be furnished by the State authorities to the Surveyor General that any lands are of the character embraced by the grant, and such instructions and decision determined that the State authorities must adopt one or the other of these two bases as furnishing the data upon which the lands so granted were to be selected and could not rely upon both combined.

Upon a personal interview and consultation between the Governor and the present & former Surveyor Generals and several of their deputy Surveyors it was the opinion of these officers that the State would obtain a larger quantity of land under this grant by adopting the first named basis as furnishing the data of the selection of the Swamp overflowed lands in the State. Under the first basis the selections would be made by the Surveyor General & descriptive lists of such lands furnished by the General Government without, of any expense to the State.

Under the second basis as furnishing the data of such selections it would have been necessary for the State to have established a regular Surveyors department for the time being and to have had a large surveying corps in the field to have made the selections within any reasonable time, and under the system ^{as provided by the act of the Legislature relating to Swamp lands} of employing such Corps, to make such selections by the State, this duty could not, or at least would not, have been accomplished at an expense less than, in the opinion of the Surveyor General & the Governor, of ^{from} twenty five thousand to one hundred thousand dollars, probably approximating more the latter sum than the first. The quantity of Swamp land in the present surveyed portion of the State is supposed and estimated to be from one million to one and a half millions of acres and by the second basis of selecting it, according to the mode of compensation established by the act of the Legislature referred to, the cost of selecting & surveying these lands by the State would have cost more

31
34
than the original cost of survey by the General Government.
At any rate it was clear and evident to the Governor that any
additional quantity of land that might be obtained by adopting
the second basis of valuation above named, ^{instead of the first basis} would not in value cover
or equal the cost and expense of the valuations being made according to it
which expense would be saved by adopting the first basis.

The Governor therefore came to the determination herein before
recorded, believing that this decision was dictated for the best inter-
ests of the State and is sustained by sound policy and economy.

This day the Governor entered into a contract, with the assent
of the Surveyor General, with James A. Reed Esq. the second clerk
in rank of that office to furnish for the State Official Certified Copies
of the plats of survey of all the surveyed townships in this State
at the sum of one dollar and seventy-five cents ~~per~~ ^{for each} township.

And said Brown is directed to insist that the said portion of the first named grant so sold by the said Territory cannot be legally & properly chargeable against this State as a part of the said 500,000 acre grant as by the resolutions appended to the Constitution of this State and approved to by Congress in the act of admission of this State it is declared that only that portion of the said first named grant remaining unsold at such admission should constitute a part of the 500,000 acre grant which is now so unsold was 131,044 $\frac{1}{2}$ acres of land and said agent will further endeavour to procure the proper Department of the Government to issue directions and authority to this State to select and locate the residue of the grant of 500,000 acres of land not heretofore selected & approved & also to procure the approval of such lands as have been selected for and on account of said grant & not approved by the Government.
